FLORIDA WOMAN BUYS AEROPLANE

TO TAKE LESSONS AND BECOME
FIRST-CLASS AVIATOR.

This is the First Case on Record
Where a Woman Has Bought
a Flying Machine.

HAMMONDSPOUT, N. Y., Nov. 6.—
A Contract has just been closed here
by Mrs. H. A. Arnold of Florida,
whereby she becomes the owner of
an aeroplane of the Curtiss type, in
which she intends to make flights.

Mrs. Arnold owns a magnificent
country home near the East Coast of
Florida, 150 miles from Jacksonville.
The grounds and outlying country are
admirably adapted to aviation. She
is an enthusiast on the subject, and
wishes to experiment in aviation.

Mrs. Arnold watched a flight by
Herring in Indiana, and received then
the first impetus to attempt experi-
ments in the air. Some time ago she
came to Hammondsport with the ex-
pectation of seeing an aeroplane in
flight, but was disappointed. During
the week the weather conditions
were unfavorable for exhibitions.

The aeroplane purchased is the one
used by Curtis in Chicago and at the
Hudson-Fulton celebration. It has a
thirty-horse-power water-cooled engine
and is equipped with the new type of
four-blade propeller. The machine
has been reassembled here and suc-
cessfully used during the past week
by Charles K. Hamilton of New Bri-
tain, Conn.

Mrs. Arnold, who is touring the
North in an automobile with servants,
expects to attempt flights in Florida
within a month. The machine, while
primarily intended for one person, will
carry a passenger as well as the avi-
ator. It is the intention of Mrs. Ar-
nold to begin by making short runs
and gradually increasing the speed to
running jumps.

This is the first purchase of an
aeroplane by a woman in any part of
the world, so far as known. Mrs.
Arnold is a brunette, of slight build
and weighs about ninety pounds.

Chas. C. Martin were approved as no-
taries.

R. N. Owens, I. J. Phinon and L.
H. Grimes, having complied with the
law, were granted permits to carry
a pistol, and A. W. Taylor a repeating
rifle.

The report of Treasurer Matheson
showed \$28,486.93. In the general
funds of the county.

The board then adjourned.

IN HOPELESS CONDITION.

J. W. Bennett Was Taken to Hospital
Late in the Evening.

J. W. Bennett, well-known here and
who resides in the southern part of
the city, was taken to the city hos-
pital Saturday night in a most help-
less condition.

For some time past he has been
confined to his bed, but only within
the past few days has his case be-
come alarming and an operation de-
cided upon. It is stated by the physi-
cians in charge that his intestines
have grown to his side, and that un-
less a successful operation can be
performed his case is a hopeless one.
Last night much fear was entertained
that he would not live through the
night.

The New Garage.

The Gainesville Motor Car Com-
pany, owned by C. W. Hill and G. Hen-
ry Davis, have an announcement in
their space today informing the peo-
ple that they are now ready for all
classes of automobile work and also
carry a full line of supplies. They
have the agency for the E. M. F. and
Brush, which are becoming popular
in this section and the genial manager
is kept on the move demonstrating at
all times.

CONGRESSMAN SCOTT ENDORSES CANNON

And By So-Doing the Kansas Man Expects to Be Appointed Secretary of Agriculture

GARRETT, Kans., Nov. 6.—I came
to Garrett to hear Congressman
Charles F. Scott, representative of the
Second Kansas District, explain to
his constituents why he voted for the
Payne-Aldrich bill.

From the press gallery in Washing-
ton I had many times heard Mr. Scott
give his vote for the perpetuation of
the Cannon-Aldrich ring rule. I had
noticed that when the Speaker crack-
ed his whip, Mr. Scott could be de-
pendent upon to vote "regular."

Of Mr. Scott it can be said that
he is a "standpatter" in Washington
and a "progressive" at home. In his
speech he eulogized Speaker Cannon
and portrayed him as a much-misre-
presented and maligned man.

"My dear people," he said, drop-
ping his voice to a prayer-like whis-
per, "I caution you to be on your
guard. The Democratic newspapers
and some of the Republican news-
papers would have you think that the
Speaker of the House was an auto-
crat, a czar, a man lacking in patriot-
ism, who would actually like to pre-
vent a member of Congress from rep-
resenting his constituents."

Mr. Scott stepped nearer the audi-
ence, spread out both hands over the
heads of the people, and an intense
stillness settled upon the house.
There was a suspicion of a choking
sensation in the speaker's voice when
he finally continued in the low prayer-
ful tone:

"I am thinking," he said, of another
great man who was painted as black
as night—Abraham Lincoln."

Some in the audience were visibly
affected. Others moved uneasily in
their seats.

"Yes, Abraham Lincoln was malign-
ed in his day," said Mr. Scott. "And
there was another great man who was
the target for slander, Garfield. And,
my good people, there was another
to whom I want to call your attention.
It was William McKinley."

As he closed the sentence the
speaker's voice descended lower and
lower, and finally dropped to nothing.

Some of the women auditors were
plainly on the point of bursting into
tears. Then Mr. Scott came to the
rescue by throwing sentimentality to
the wind, demanding almost fiercely:

"Do you suppose Mr. Cannon's con-
stituents would return him to Con-
gress session after session if he was
a bad man?"

An old gentleman in the audience

arose as if he intended to answer the
question, when Congressman Scott
beat him to it.

"Certainly not," thundered Mr.
Scott, and the old man sat down.

"Now as to the tariff," said Mr.
Scott. "Why, did I sign that bill?
Well, because it was the bill of the
Republican party. The tariff bill has
been greatly misrepresented. Even
some of the Republican papers have
not been guiltless. I marvel how the
average American citizen can be
fooled like he is being fooled. Why,
all you have to do is to read the bill,
like I did, and you will see for your-
self that the revision was downward.
That is why I voted for the Payne-
Aldrich bill! Because it was an ab-
solute fulfillment of the Republican
campaign promise. How can anyone
doubt it, President William Howard
Taft has given his word that the re-
vision was downward, and for any
of you to take the position it was not
downward is to challenge the veracity
of the President of the United States."

Mr. Scott said that he considered
his address as an official report of the
manner in which he had discharged
the trust reposed in him by his con-
stituents, and the meeting closed.
There had been no symptom of ap-
plause in the course of the Congress-
man's address, but at the close most
of the women and a few of the men
indulged in hand-clapping, while in
the rear two rows of young men beat
a tattoo on the floor with their feet
with such persistency as to indicate
they had been under a course of spe-
cial training for the event.

Mr. Scott is a talented, highly edu-
cated, clear-cut type of man. Why
will a man of his qualifications sup-
port an aggregation like the Cannon-
Aldrich oligarchy, which stands for
gang rule and everything that is bad
in politics?

Perhaps this is an answer to the
query: Mr. Scott is ambitious. By
voting as Speaker Cannon directs
him, he sees a possible chance of ad-
vancing himself. Mr. Cannon has al-
ready made Representative Scott
chairman of the committee of agricul-
ture, which is a nice berth in itself.
And by using all his energy to pro-
mote Cannonism and Aldrichism Mr.
Scott hopes to be appointed Secretary
of Agriculture.

A little want ad. will accomplish
big results.

Sea Island Cotton Sells For 30 Cents in Savannah

SAVANNAH, Nov. 6.—The Sea Is-
land cotton market has ruled active
and very strong the past week and
advanced rapidly. Quotations
for extra and extra choice are 3 to
3 1/2 higher. As fancy reached 30c a
good deal of holding cotton came out,
resulting in some increase of offerings
and a corresponding lull in the de-
mand, so that the close was quiet.
The three lowest grades are nominal,
there being no stock.

No change is noted in crop accounts,
except that reports from Florida say
the ginning is approaching completion.
Sales for the week 2,625 bales.

The following prices were based on
factors' quotations and are revised

Florida Newspapers Are In Favor of a Convention

The Pensacola Evening News is
entirely in favor of a State Democrat-
ic convention and believes the holding
of such a convention would be the
most possible thing for the party in
the State. It would serve to bring
together various divisions and factions of
the party together on a common Dem-
ocratic footing and would give us a
party organization of some strength
and cohesiveness—something we now
entirely lack.

The News expresses its surprise
that certain papers in the State so
thoroughly oppose the convention. No
reason has ever been given for
their attitude and, it is to be pre-
sented, their only fear is that a con-
vention would militate against the
primary system and threaten its
preeminence. A State Democratic con-
vention would have very little to do
with the primary system, established by
the constitution, which is a fixture, established by
the constitution. Such a convention would
not attempt to nominate a single can-
didate for office or even to recommend
one to the voters. Its purpose would
be to adopt a platform and policy for
the party in this State, to establish
unity and map out a chart for the

proper course of the Democratic ship.
The Democratic party of Florida is
the only Democratic party division in
this country which hasn't a vestige of
a platform and has no established
declaration of policy. The only sem-
blance of organization which it af-
fords is an executive committee,
which is rarely heard of and which
doesn't maintain an active participa-
tion in party affairs, except during the
progress of a primary campaign. At
present the Democratic party of
Florida is merely a convenience for
office-seekers and Democracy in Flor-
ida is only a cloak for the most dis-
graceful and picaresque variety of
personal and "peanut" politics.

Of course, we want a State Demo-
cratic convention.

The News, by the way, suggests
that "it might be interesting to hear
from the chairman of the State Ex-
ecutive Committee on this important
subject."

Let's see—who is the chairman of
the State Executive Committee? It
is such a useless, dormant body and
we hear of it so infrequently, that we
must confess we have forgotten all
about it.—Tampa Tribune.

SCHOOL GROUNDS BEING BEAUTIFIED

IN A FEW MONTHS WILL PRE-
SENT FINE APPEARANCE.

Miss Carrie Dean Succeeds Miss Bes-
sie Carver as Teacher of
Sixth Grade.

Several patrons have visited the school the past week. Others would find it very much to their edification and enjoyment to do so. Let those who visit the grades ask to see the work that is kept for exhibition.

The Junior Literary Society held its first regular meeting Wednesday afternoon, with George Moseley presiding and Louise Parker as secretary. When it is considered that many of those taking part had never had any experience in exercises of this kind, the program was well rendered. Notwithstanding the fact that there were knocking together of knees, twitching at trousers, and other nervous things that inexperienced debaters are given to doing, the debate was the best thing on the program.

The sympathy of the entire faculty and student body goes out to Miss Bessie Carver, who was forced this week on account of failing health to resign her position as teacher of the sixth grade. No teacher in the school was more popular with her pupils. Miss Carver possesses to a reasonable degree the rare faculty of gaining the admiration of her pupils. She does not get their good will by petting, humoring, or indulging. Although she is very firm, sometimes severe, her pupils almost idolize her. It is the earnest desire of the faculty and students that she may soon recover and be able to resume her place in the faculty at the beginning of another session.

Miss Carrie Dean has been appointed to the place made vacant by Miss Carver's resignation. The school is indeed fortunate in being able to secure a teacher of Miss Dean's ability to fill this vacancy. Miss Dean attended the common schools of Georgia; was for two years a ranking student of the East Florida Seminary; and spent three years at the Florida Woman's College, graduating from that institution with the class of 1908. She was a member of the faculty of the Quincy High School last session, having charge of the eighth grade and teaching high school history. She gave eminent satisfaction in that position, but resigned to spend the winter at home helping her brother and sisters with their studies.

The kindergarten department will open Monday morning at the Primary building at 8:30 o'clock. It would be well for those mothers who can do so to accompany their children to this department on the first morning. Much is expected of this work. It is hoped that the results will be such as to lead to the establishment of a free kindergarten.

High School Notes.

The School Improvement Association has had a man employed during the past week preparing flower beds about the building. The Experiment Station and ladies of the association have contributed a large number and variety of bulbs, roses, cannas, and so forth. As soon as the wire which is to be used in protecting the beds arrives the plants will be set. When these plants get to growing and blooming and other contemplated improvements are made, the school grounds will be the most attractive spot in the city. The School Improvement Association is working with an interest and enthusiasm that is sure to result in great good to the school, and whatever improves the Gainesville Graded and High School benefits Gainesville. This school is more vitally connected with the general welfare of the city than any other single institution. It is here that a large majority of Gainesville boys and girls are to get all the schooling they will ever have.

MARION COUNTY FAIR WILL MAKE SHOWING

NEW BUILDINGS AND ENLARGEMENT OF GROUNDS.

Their Second Show Will Be the Largest and Grandest Ever Seen in Florida.

The buildings and grounds of the Marion County Fair Association are much larger and better this year than ever in the past, and a great many new buildings have been erected for the accommodation of the exhibits, horses, etc., besides two large separate grand stands erected for the people to view the races and other sports inside the large race track grounds.

The white grand stand has recently been added to and is now a building 100x50 feet, while the colored stand is 75x30 feet, both filled with good comfortable seats, and the bleachers alone will accommodate about 1,500 people. The race track has been greatly improved and for the past four weeks the managers of the association have been at work during the day rolling and packing the track, while all night long they keep the city sprinkler at work to make it one of the best tracks to be found in the State, and it has ever since last season been considered the fastest track in Florida.

The agricultural hall is a building 180x40 feet, while the building for the colored exhibits is 40x40 feet, and an additional exhibit space is arranged under the grand stand of 50x100. McIver & McKay have erected a building 40x40 for their individual exhibit, the office building is something like 20x30, and the entire enclosure of the building and grounds will aggregate 75 acres.

This is by far one of the largest sites selected for fair purposes to be found in the South, and with the new and additional buildings erected at a great cost during the past few months, the association will be able to take care of the exhibits and people most admirably.

The coming fair will not be lacking in the amusement feature, for they have contracted with one of the largest amusement concerns in the North for sufficient shows to fill up their large midway, this alone to have a fronting space of something like 3,000 feet.

Ask your agent about the excursion rates to be given to this three days of fun and frolic, and make up your mind in advance to be present at least part of the while and see what is to be shown by Marion county.

ROCK ROAD IS NOW ASSURED TO LAKE

WELLEY'S BLUFF WILL BE THE OBJECTIVE POINT.

Distance About Five Miles and Will Afford a Lovely Drive.

The matter of a rock road leading to Welley's Bluff, on Lake Newman, is being considered, but under a more favorable plan than the one which has heretofore been mentioned, the actual need of such a thoroughfare almost assures that it will be built along the new lines.

While the matter was thoroughly stated by the people and this paper, it was not just the exact time to take the matter up, but has put the serious of our citizens to thinking and as a result they are now working upon a scale that will eventually result in building the roadway, they fully realize what a bonanza it will mean to the city, both as a tourist city, and for the amusement of our own people.

Phillip Miller is among the interested ones that has taken the matter up and worked quietly on the project for the past number of weeks, and his efforts have been most liberally rewarded. In conjunction with others he has secured a right-of-way from the end of Alachua avenue to the lake,

and the route is on a direct air line from the city to the lake.

The right-of-way will be 105 feet wide and the distance from the city to the lake at this point is just five miles, so it will be constructed and graded so one will be able to see the lake from the city with a glass.

Mr. Miller states that few citizens realize what a scene of beauty the natural bluff and park at this point presents, and that it would be worth many thousands of dollars to Gainesville for the tourists, while it will prove equally as inviting as a summer resort for our home people.

Visitors must have some place of amusement, and to build this road will mean that we are catering to the wants of the tourist, and even if we do not have a single visitor it would more than pay for the expense incurred in the way of amusement for our own people. It will afford us a place for our own comfort at all times and will make a tourist town of our city.

All of the 105 feet of right-of-way has been secured and deeded to the county, and it is now up to the citizens to furnish the necessary cash to clear this right-of-way, grade the road and pave it the entire length, which is about five miles, or possibly a fraction less.

The list for starting this work was headed by W. R. Thomas with \$500, and a number of other contributions quickly followed, but it will be carried around within the next few days and all given a chance to assist in the building of this thoroughfare.

It is proposed to have this roadway in operation within the next few months, and the commencement of the work will depend largely on the subscriptions received by Mr. Miller on his initial canvass to be made next week.

It is estimated that this road can be built, graded, rocked, and the entire right-of-way cleared the entire width of 105 feet for about \$5,000, more than a third of which has been volunteered up to the present time without a general canvass among the business men.

OUR WINTER CHAUTAUQUA.

Major Thomas Receives Interesting Letter From Dr. Davidson.

Major W. R. Thomas is in receipt of an interesting letter from Dr. W. L. Davidson in reference to the Gainesville Chautauqua, and from the list it will be seen that he is making an extra good selection for this event at Gainesville.

A large number of his bookings have been closed and those secured have the reputation of being only first-class artists in their lines and this grand event, which usually attracts hundreds of people here, will be given for the two weeks following the Bible Conference.

Paul M. Pearson, A. W. Lamar and Dr. H. W. Sears are among some of the famous lecturers he has secured for the event.

What Would You Do?

In case of a burn or scald what would you do to relieve the pain? Such injuries are liable to occur in any family and everyone should be prepared for them. Chamberlain's Salve applied on a soft cloth will relieve the pain almost instantly, and unless the injury is a very severe one, will cause the parts to heal without a scar. BOTH FLORIDA TEAMS LOSE OUT SATURDAY

STETSON PLAYED ALL AROUND BOYS BY SCORE OF 25 TO 0.

Even the Jacksonville High School Lads Defeated the Second U. of F. Team.

The University lads were small people in the two games of football played Saturday at DeLand and Jacksonville, for in both instances they were shut out, not even being allowed one score.

None of the particulars regarding the game were learned in this city—only the bare statement announcing the result, and it was rather blue to the many admirers of the University which has made such an excellent start in the athletic line to see them defeated by such an immense score.

Stetson is credited with 25, while the Varsity boys received 0, and in the game at Jacksonville between the second eleven and the Duval County High School the Jacksonville boys were victors by a score of 5 to 0.

There is a return game coming and the consolation is that they will make an even break at this time.

DON'T NEGLECT THE YARD.

It is beyond understanding why so many, especially in the rural sections of the South, says The Progressive Farmer, possesses such a mortal fear and bitter hatred of grass. If it by chance attempts to grow near the house, it is at once attacked, dug up, exterminated, and a bare yard of sand or clay left, to be swept when convenient—a barren, desolate ugly sight, where nature would put a beautiful green sward, if permitted to do so. The grass can be cut with less labor than the bare earth can be kept cleanly swept. We hope no country doctor is responsible for the ridiculous and false idea that the grass is unhealthful. Grass is nature's protection for the bare, ugly soil and a yard covered with growing grass that is regularly cut is a better condition from the standpoint of beauty or health. Of course, the grass should be kept cut short, but as stated this can be done with less labor than the bare clay or sand can be kept clean. It is also a mistaken idea that mosquitoes and flies breed in tall grass. Mosquitoes breed only in stagnant water and house flies in stable manure. Remove these and do away with both, but by all means let the grass grow over the front yard and add at least one touch of Nature's beauty to the place.

Hon. S. M. Sparkman is home from his tour of Europe, where he rubbed elbows with the notables of the old. To his friends, however, he is the same genial, jovial "Steve" as of yore, remarks The Palatka Times-Herald.

It is a sure sign that a fellow was raised in the country when he goes all the way from Gainesville to Jacksonville just to see the circus. Yet a dozen or more people did this very thing last Friday, and we are of the opinion that there was some other attraction for them in the State metropolis—that the circus was only a "blind."

The Miami Metropolis uses the name of Congressman Sabath—we take The Met's word for his being a Congressman, though we never heard of him before—to prove that Frank Clark could not have been re-elected secretary of the National Congressional Committee if he had been a candidate for the place. Sabath is from Chicago, and of course he knows.

Reports from different sections of the State are to the effect that Hon. W. A. Blount made a most favorable impression in his preliminary tour of some weeks ago in the interest of his candidacy for United States Senator, and there is a strong feeling among many people that if Senator Tallaferra is to retire to private life Col. Blount would be a most worthy successor. Senator Tallaferra has not yet made a formal announcement, and his friends are waiting a public announcement from him before committing themselves on the Senatorial question. He has already delayed such announcement too long for his own good, and if he is not heard from very soon he may find a number of his old supporters inclined to some other candidate.

A VALUABLE SUGGESTION.

United States Senator Duncan U. Fletcher has on numerous occasions during his comparatively brief service in Congress given evidence of a resourceful mind and one prolific in suggestions for the public good.

Senator Fletcher's latest suggestion, which is attracting much favorable notice from the press, not only of Florida but of the country, is, in short, that the valuable and expensive machinery which is now being used by the Government in the construction of the Panama Canal be preserved in good condition that, when the canal is completed, it be brought to this country and used in the inland waterway improvements which are to be made, from time to time.

That the adoption of this suggestion will mean a great saving of expense to the Government needs no argument. Surely, machinery of the expensive type purchased by the Government for the canal work, will not be worthless after the present operations are ended. It is the usual custom to consign such machinery, especially if it belongs to the Government, to the junk-heap—an extravagant feature of public work that has no reasonable excuse. That much of the Panama Canal machinery could be used with advantage and success on other public improvement projects cannot be doubted.

It is pointed out by The Pensacola Journal, in connection with the suggestion of Senator Fletcher, that a considerable portion of this machinery will not be required for the finishing touches on the canal and there is probably some of it that could be transferred now and put into shape for home waterway work. At any rate, the Fletcher idea is worthy of serious consideration by the Government authorities who have charge of that particular department and, if they are actuated by a conscientious desire to save expense, they will take the necessary steps to carry the Florida Senator's suggestions into early effect.—Tampa Tribune.

DON'T GIGGLE, GIRLS.

Don't giggle. It's only a form of hysteria, and is about the most annoying habit which a girl can acquire.

Laughter, real and infectious, is the best tonic for everyone, and the "girl who can smile when everything goes dead wrong" is the finest woman in the world in everyone's estimation. But that's not giggling. School girls are prone to shriek of unmitigated laughter, and this, alas, is often continued through force of habit throughout their life.

A musical laugh is a rare gift; a hearty one is infectious; but if you are incapable of either, suppress a laugh that means nothing.

The woman who really laughs is a joy to those around her. It may not possess a pitch that delights a musician's ear; it may have infectious little notes that do not stand for harmony; but if it is real and joyous it will make all those who hear it smile.

The laugh that is annoying is the one without meaning. It is a nervous ripple that is often used as a period or an exclamation point. It is placed at the ending of every sentence, and takes from the spoken word any meaning or emphasis it might have.

Many women who do it are not conscious of it. They are far from silly women. They have poise and sense, and are not as easily confused as one would judge by the futile laughter they give after their sentences.

If the idea impresses you at all, watch your own style of talking when outside the family circle and intimate friends. You may not be given to laughter, but again you may find that you unconsciously punctuate your most commonplace sentence as your back puffs.

If you do this, stop it. Watch yourself as carefully as though the fault were a serious one. After trial for a week, you will go far. Your impulse will be there, but your quickening perceptions will make you grapple with the impulse and throttle it at the first false note.

In a month you will hear yourself as others hear you, and wonder how they stood you. You will perceive for yourself the senseless of the nervous laugh. You will begin to watch for it in others, and shudder as you think how constantly you sounded just as they do.—Tampa Tribune.

Let a want ad. negotiate a trade for you—of something you don't need for something you do.

A GOOD THING.

If there are 2,000,000 Southern people who are feeling puny and peevish on account of the hook worm having got 'em—

And if Deacon Rockefeller restores them to health and peartness;

Then, they will be interested in things, and will read at night.

They will burn Mr. Rockefeller's oil reading the newspapers.

Which will be a good thing for Mr. Rockefeller and the newspapers.

To say nothing of the people.

It is a noticeable fact that the Democratic party always "feels greatly encouraged" at the result of elections in off-years—a sort of convalescence from the relapse suffered during the Presidential year.

MADE MATTERS WORSE.

Her Effort to Correct Her Error About Charles and Mary Lamb.

Charles Lamb, the beloved Ella of the essays, wrote both tragedies and comedies, but was not a successful playwright. When his farce "Mr. H." was produced at the Drury Lane theater it failed conspicuously, and the genial author, who was in the audience, himself joined with companionable vigor in hissing it.

It is, indeed, an airy trifle, too slight in texture for the professional stage, but it has proved a charming play for amateurs. At a recent performance by a college dramatic society a little dialogue took place between two ladies in the audience which would certainly have delighted Lamb himself could he have heard it.

"Mr. H., a farce in two acts by Charles Lamb," read one of them from her program. "Do you know, I had quite forgotten that Lamb was a dramatic author."

"Oh, my dear," exclaimed her neighbor, with a superior smile, "of course he was! Surely you must remember that he and his sister collaborated with Shakespeare."

"Collaborated with Shakespeare!" exclaimed the first speaker, startled out of her politeness. "Ridiculous! What could have put such an idea—Oh, you must be thinking of the 'Tales From Shakespeare,' by Charles and Mary Lamb."

There was mirth in her voice, and the superior person, flushing, perceived that overhasty "cranking" for the occasion had led her into error. She tried to retrieve herself.

"I did not mean collaborated with him, of course," she explained loftily. "That was merely a slip of the tongue. I meant translated him."—Youth's Companion.

AN ESKIMO CHURCH.

The Sealskin Sweatbox Finally Went to the Dogs.

The missionary sent to the States for a magic lantern and the necessary slides. Thirteen months later they reached him.

Everything in Baffin Land dates from that ever memorable magic lantern exhibition. From 300 miles around the expectant Eskimos came in behind their dog teams to participate in the wonderful event. The seal skin church was filled to overflowing. The spectators were packed as closely as sardines in a tin. The scent of sperm oil and blubber and sweat soaked furs mingled in the air. Although the thermometer outside registered 40 degrees below zero, the perspiration poured in streams down the faces of the enthusiastic audience. And when the straggling list of arctic explorers who have touched at Cumberland sound have long since been forgotten the recollection of that magic lantern show will linger in the minds of the Eskimo from Meia Inoguita to Cockburn Land.

But a few nights later a sad fate befell the seal skin church. It was eaten up by a pack of hungry Eskimo dogs. These savage creatures, starved almost to death, made a raid on the edifice during a blinding snowstorm. Managing to get on top of the roof they soon tore holes in the seal skin covering, and, in spite of the exertions of the missionary and his entire congregation, they actually ran away with the greater portion of the frozen skin which, at a safe distance, they proceeded to devour—Everybody's Magazine.

FROM ALL PARTS OF FLORIDA

Elks of Live Oak have let the bid for a fine new \$10,000 club.

Clifford Usina, a well-known resident of St. Augustine, died in that city Tuesday.

Deade City Hotel, one of the landmarks of that section, was destroyed by fire last Friday.

West, it is learned, will soon move morning daily. It will be a boon for the Cuban population.

Telephone message was recently received from Inverness to Chicago and answer was received in forty-five minutes.

Young of Plant City was in Gainesville Monday making arrangements for the opening of the bacteriological laboratory.

Five hundred dollars was raised for the Tampa last Tuesday by ladies of the city for the building fund for the children's home.

Wagon sold in Pensacola on Monday for the highest price in the history of the city, \$11-16 paid by buyers, and was considerably purchased at that price.

Work on the Tampa and Gulf Coast, which will connect Tampa and Spring Springs, is progressing and will be completed about the first of the year.

Amount of over \$2,500 in the amount of the record of the Pensacola postoffice of business done in the month of October, when compared with the same month of last year.

Gainesville is to have a new up-to-date system of street cars, known as "push-you-enter" kind. The street car line will be given the same kind and if they prove satisfactory the same kind will be installed on other lines.

Lorna, an old citizen of Pensacola, died at the home of his sister Tuesday night. He was for many years proprietor of the West End hotel in that city, but had to give it up on account of his failing health, and died at the age of 55.

Large shipping has commenced for Fort Christmas. Lem Hodges and delivered his crop, and has been nearly two hundred tons put up and shipped from Pensacola in the past week. The cotton bolls are said to be well adapted for the season.

Several hundred dollars in real estate personal property to be known as "Livingston Mission" was left in the trustees of the Snyder Memorial Church of Jacksonville by provisions of the late C. O. Livingston's will, probated last Friday.—Gainesville Evening Record.

FOR THE KIDNEYS WELL

It is Worth Saving, and Some Gainesville People Know How to Save It.

Gainesville people take their kidneys in their hands by neglecting them when they know these organs are sick. Sick kidneys are responsible for a vast amount of suffering and pain, but there is no need to remain in danger when kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills. Here is a Gainesville man's recommendation:

"E. H. Walters, 108 N. Oak avenue, Gainesville, Fla., says: 'My kidneys were disordered for some time and I could find nothing that would help me. I suffered greatly from backaches and aches and pains due to sick kidneys and was often so dizzy that I could not stand. Seeing Doan's Kidney Pills advertised, I prepared to try them and began their use. They actually relieved me. I have no hesitation in giving Doan's Kidney Pills the highest recommendation.'"

Doan's Kidney Pills are sold by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Beware of cheap imitations. The name—Doan's—must be on the wrapper.

FOR AGED PEOPLE.

Old Folks Should Be Careful in Their Selection of Regulative Medicine.

With advanced age comes inactive bowel movement and sluggish liver. Nature is unable to perform her proper functions and requires assistance. Otherwise, there is constant suffering from constipation and its attendant evils. Old folks should never use physic that is harsh and irritating.

We have a safe, dependable and altogether ideal remedy that is particularly adapted to the requirements of aged people and persons of weak constitution who suffer from constipation or other bowel disorder. We are so certain that it will completely relieve these complaints and give absolute satisfaction in every particular that we offer them with our personal guarantee that they shall cost the user nothing if they fail to substantiate our claims. This remedy is called Rexall Orderlies.

Rexall Orderlies are eaten like candy. They have a soothing, healing, strengthening tonic and regulative action upon the dry mucous lining and the relaxed muscular coat of the bowel. They produce a natural, successive contraction and relaxation of the muscular fibres of the bowel walls, generating a wave-like motion which forces their contents onward and outward; thus stimulating nature in perfect bowel movement. They tone up and strengthen the nerves and muscles and restore the bowels and associate organs to more vigorous and healthy activity. They may be taken at any time without inconvenience; do not cause any griping, nausea, excessive looseness, flatulence or other disagreeable effect. Try Rexall Orderlies on our guarantee: 36 tablets 25 cents, and 12 tablets 10 cents. Remember you can obtain Rexall Remedies in Gainesville only at our store—The Rexall Store. J. W. McCollum & Co., corner East Main and Union streets.

THE HYDE COMPANY.

Announce Extraordinary Bargains for the Next Three Days.

The G. W. Hyde Company have a page advertisement in this issue of The Sun which our readers are requested to read carefully. They announce one of the largest sales that was ever inaugurated in Central Florida of ladies' tailored suits, dresses and coats. These goods are all tailor-made and are direct from the factory to this mammoth establishment, who buy in such large quantities that they cannot help but receive the inside figure on prices. Some of these suits are made to sell at about double the price, but the warm weather has caused this firm to cut the price and reduce their stock. Monday, Tuesday and Wednesday this great offer is open to the ladies of Gainesville and the surrounding territory.

They mention the exquisite models in ladies' capes and long coats which are again most popular with the feminine sex and their assortment is large and varied. Call at the Hyde store and see their great stock of goods.

A Tiny Baby

Can't tell you in words what the trouble is; but if it's complexion gets pasty, if it gets weaker and weaker, loses flesh and is cross and peevish, you can be certain that it has worms. Give it White's Cream Vermifuge, guaranteed harmless. Expels the worms and puts the baby in a healthy normal condition. Sold by W. M. Johnson.

The House of Wilson.

The house of Wilson have a change of advertisement in today's Sun in which it would be wise for intending purchasers to read. This large house has recently been remodelled and overhauled, and it is now one of the handsomest and most complete department stores to be found in the State. Their large list of bargains that are being mentioned cannot help but attract attention of the busy shopper.

KENNEDY GIVES TO CHARITY \$25,000,000

THE LARGEST SINGLE CONTRIBUTION EVER MADE.

All Sections and Even Foreign Countries Share in the Benefactions.

NEW YORK, Nov. 6.—John Stewart Kennedy, one of America's little-known rich men, who died of whooping cough in his New York residence on Sunday last, left bequests of more than \$25,000,000 to religious, charitable and educational institutions in his will, filed for probate here yesterday. The gift is the largest single contribution of its kind ever made and the beneficiaries include educational and church institutions, North, South, East and West in this country and several abroad, sixty in all.

Nearly half of the \$25,000,000 goes to institutions connected with the Presbyterian Church, of which Mr. Kennedy was an active member. Other large beneficiaries include the American Bible Society, the Metropolitan Museum of Art, the New York United Charities, Columbia University and Robert College, Constantinople.

Aside from these gifts Mr. Kennedy left approximately \$35,000,000 to his wife, his relatives and a great number of friends and employees. The widow's share will be about \$16,000,000. All of the testator's employees receive gifts of from \$500 to \$2,000 each.

The charitable, religious and educational institutions which receive the largest bequests are to share the residue of the estate left after definite gifts of approximately \$12,000,000 have been paid out. Their shares are estimated by the executors as follows:

Presbyterian board of foreign missions, \$2,250,000.
Presbyterian board of home missions, \$2,250,000.
Presbyterian church extension fund, \$2,250,000.
Presbyterian Hospital, New York, \$2,250,000.
Robert College, Constantinople, \$1,500,000.
Presbyterian board of aid for colleges, \$750,000.
Metropolitan museum of art, New York, \$2,250,000.
New York Public Library, \$2,250,000.
Columbia University, \$2,250,000.
United Charities, New York, \$1,500,000.
American Bible Society, \$750,000.
Charity Organization Society, New York, \$750,000.

Among numerous smaller gifts are the following:

Yale College, \$100,000.
University of Glasgow, Scotland, ("Where from my infancy I resided until I came to this country") \$100,000.
Tuskegee Normal and Industrial Institute, \$100,000.
Hampton Normal School and Agricultural Institute, \$100,000.
Anatolia College, Marsovan, Turkey, \$50,000.
Syrian Protestant College, Beirut, Syria, \$25,000.
American school at Smyrna, Turkey, \$20,000.
Center College, Danville, Ky., \$25,000.

Presbyterian board of relief for disabled ministers, \$20,000.

There are also numerous bequests of from \$5,000 to \$25,000, generally to local religious and charitable organizations.

The long list of gifts is prefaced in the will by this paragraph:

"Having greatly prospered in the business which I carried on for more than thirty years in this, my adopted country, and being desirous of leaving

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newell's Hairbalm was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it eats the vitality, causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff sold by leading druggists. Send 10c in stamps for sample to The Hairbalm Co., Detroit, Mich.

Remember, that it will cost you nothing to give the treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Just send me your name and address, tell me how you suffer if you wish, and I will send you free of cost, my book—"WOMAN'S OWN MEDICAL ADVISER" with explanatory illustrations showing how women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says—"You must have an operation," you can decide for yourself. Thousands of women have cured themselves with my home remedy. It cures all, old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Discharge, and Pains in the Pelvic Region. Irregular Menstruation in Young Ladies. Plumpness and health always results from its use. Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you of their sufferings. This Home Treatment really cures all women's diseases, and makes women well, strong, plump and robust. Just send me your address, and the free ten-day's treatment is yours, also the book. Write today, as you may not see this offer again. Address: MRS. M. SUMMERS, Box H, South Bend, Ind., U. S. A.

some expression of my sympathy with its religious, charitable, benevolent and educational institutions, I make these gifts."

Mr. Kennedy, whose death on Sunday occurred with only brief comment by the press, was one of the millionaire philanthropists whose gifts, though measured in millions, were made with as little glare of publicity as possible. As he gave quietly, so he had lived, unostentatiously, and made his princely fortune with little blare of trumpets. Besides being a banker, he was one of the country's chief builders of railroads, a patron of art and education, and, in his own quiet way, one of New York's foremost advocates of scientifically organized charity.

Many of his great benefactions probably never were made public, but he figured in recent years as the giver of the \$800,000 home for the United Charities in this city, \$1,000,000 to the Presbyterian Hospital, \$250,000 to the school of philanthropy, \$500,000 to Columbia University, and of \$400,000 to a nurse's home for the Presbyterian Hospital. Many, even among the well-informed, had little idea of the real wealth of the retired banker.

On Wall street, Mr. Kennedy had the reputation of keeping the largest cash balance in his bank accounts of any New York financier.

As banker and investor, he always showed great interest in the development of the Northwest.

A FAT WOMAN HATES SOCIETY

Fat people have to get into clothes that are designed for people of normal physique. The men wear dress suits and look like comic pictures. The women wear low necked dresses to their evident humiliation. This is why it is often said that a fat woman hates society. Fat is as much the mistake of poor health as anything else. The things that make fat should be making good blood, bone and nerves. The secret is that the digestive machinery is out of gear. The juices make fat in too large quantities. This fat impedes circulation, cramps the heart, suppresses the liver, crowds the lungs and interferes with the stomach. Marmola Tablets are harmless. They are taken after each meal. They help digest that meal as nature intended it should be digested. They remove the fat already made at the rate of from 12 to 15 ounces a day and they leave no flabby skin or wrinkles. They are sold wherever drugs are sold, or in the same category with harmful patent fat reducers. They contain Marmola, Cascara Aromatic and Peppermint water. If you do not care to call upon your druggist, send 75 cents to The Marmola Company, Dept. 231, Detroit, Mich., and they will send you a large, full size case by return mail in plain package postage paid.

Makes Large Purchase.

M. Venable, representing the Archer-Crate and Basket Company, has recently made an extensive purchase of realty in the Archer section. He stated yesterday that the deal consisted of something like 300 acres, and besides the timber interests the tract was among the best of farming lands to be found in the county.

sane. Mrs. Plunkett asserts that she
is perfectly sane and that the deten-
tion in the City View Sanitarium was
through the scheming of her husband
and others, who obtained some of her
property and expected to secure the
remainder by keeping her confined in
a madhouse. She asks for a writ of
habeas corpus. Dr. Plunkett is promi-
nent professionally and in religious
circles, being a leading church work-
er. Dr. Stevens, superintendent of the
sanitarium, is also named as a
defendant.

The Allegations.

After making the formal allegation,
Mrs. Plunkett claims that the sanita-
rium is nothing more or less than an
insane asylum; that the relator is in
position to show that she is held on
the excuse and pretext of insanity;
that, in fact, her mind is not unsound,
and has never been, and that she is
held in confinement by a certain
scheming relative, who has secured
some of her property and contem-
plates securing the remainder. The
relator says that twice before her
husband and other parties, whose
names it is not at this time necessary
to mention, but which will be furnis-
hed to the court on hearing, have
sought to confine her, and twice have
the heads of the institution ordered
her released.

The Deception Practiced.

Her entrance into and confinement
at this sanitarium, or asylum, she
says, was accomplished by deceiving
her and deceiving her there upon
the assurance she was being taken to
the home of a friend. She says that the
illegal confinement has continued for
a period of ten months; that a guard,
who is called a nurse, follows her at
every step; that she is not permitted
any communication with the outside
world; that everything in the nature
of writing material is denied her; that
she is guarded and watched lest some
whisper of the situation should reach
her friends beyond the prison walls;
that she is unable to communicate
with anyone.
